It is the company's intention to minimise time and material losses from scrap, badly planned work, poor communications and inefficient operations.

In pursuit of this policy, Senior Management will ensure that customer requirements are fully understood on all contracts and adequately communicated to employees in order that the customer expectations are not only achieved but enhanced.

Methodologies will be put in place to measure and monitor customer satisfaction, compliance with legislation and establishment of agreed procedures. Senior Management will regularly review and analyse the findings and take appropriate action.

In order to ensure that all staff and subcontractors understand the importance of good quality workmanship, the company will provide any training and instruction necessary and will monitor its effectiveness.

This policy is communicated and applied within the company and will be made available to interested parties as appropriate. The Managing Director shall review this policy annually and ensure that the company consistently complies with current legislation and continually improves its performance.
